

Clinical Lead (RN) – Nursing Care

Are you someone with 5+ years of experience as a nurse? Do you wish to take your career to the next level? We are looking for a clinical lead to head our nursing care services.

Purpose of the role

The person will be responsible for managing the nursing care services at Wellcare Australia in ACT to ensure smooth operations by planning, developing and monitoring relevant required care for all participants and supervising all staff members following NDIS Commission Quality and Safeguards Framework and NDIS provider registration requirements.

Position Overview

We are seeking a compassionate and enthusiastic nurse with proven managerial/leadership capabilities to join our multidisciplinary team to provide the best care to our clients and supervise our staff members to ensure they provide similar superior care. This role offers the chance to work collaboratively with professionals in a dynamic and supportive environment where your contributions will make a meaningful difference in the lives of those we serve.

Who are we?

At Wellcare Australia, we provide shared housing and assistance to participants with ongoing care needs. Our vision is to provide outstanding person-centred and recovery-oriented care, through the provision of our support workers, to help our participants through their recovery journey. Wellcare Australia is also a registered NDIS provider. The core mission of the organisation is to promote and support a recovery based on hope and ambition for all our residents, allowing their mental health to flourish.

Key Responsibilities:

- Supervise, monitor and lead a team of clinicians providing care to clients.
- Deliver compassionate and evidence-based nursing care to individuals with disabilities, ensuring their physical, emotional, and social care needs are met.
- Collaborate with the service support team to ensure the smooth functioning of nursing care operations in ACT.
- Work closely with participants, their families, and support networks to develop and implement personalised care plans tailored to their unique needs and goals.
- Conduct comprehensive assessment, including risk assessments and ongoing monitoring of symptoms and progress.
- Collaborate with multidisciplinary teams of participants including psychiatrists, psychologists, social workers, and occupational therapists to coordinate care and support to fulfil participants' care needs.
- Train, supervise and support coworkers and support workers on the care needs of participants.

- Provide regular updates to the service team.

Qualifications:

- Bachelor of Nursing degree or equivalent qualification, with current registration with the Australian Health Practitioner Regulation Agency (AHPRA).

Benefits:

- Competitive salary package based on experience and qualifications + superannuation.
- Free onsite parking.
- Access to a company car for all work-related travel across the ACT.
- Work-life balance (Working hours: 9 am to 5 pm – Monday to Friday)
- Supportive work environment with opportunities for professional development and ongoing learning.
- Opportunities for career progression and advancement within the organisation.
